

# SUPERVISION POLICY

“Children need safe and secure environments to thrive in their life and learning. Effective supervision is integral to creating environments that are safe and responsive to the needs of all children. It also helps to protect children from hazards or harm that may arise from their play and daily routines. Effective supervision also allows educators to engage in meaningful interactions with children.” (ACECQA, 2025).

## PURPOSE

Out of School Hours Care (OSHC) educators have a duty of care to ensure children are actively supervised at all times, maintaining a safe and secure environment adhering to Education and Care National Law and Education and Care Services National Regulations. Supervision for children in OSHC requires educators to cater for a wide range of ages and abilities and requires flexibility and organisation to ensure thoughtful

design and arrangement of children’s environments, assists in the prevention and severity of injury to children. Effective supervision of children provides educators with the opportunity to support and build on younger children’s play experiences whilst supporting older children’s independence.

Educators will actively supervise children, identify risks and take all necessary steps to prevent or minimise injury in a range of situations including, transitioning children between school and the Out of School Hours Care (OSHC) Service and whilst transporting children to and from the OSHC Service. Effective supervision of children provides educators with the opportunity to support and build on children’s play experiences. Our OSHC Service will ensure no child or children are left alone with a visitor, student or volunteer.

We believe that children’s safety, rights, and best interests are the paramount consideration for all Service operations, decisions and functions. Our OSHC Service ensures that child safety, wellbeing and best interests take priority over all other considerations, including financial interests or other obligations of management, and are embedded in our daily practices, policies and procedures.

## **SCOPE**

This policy applies to children, families, staff, educators, approved provider, nominated supervisor, students, volunteers and visitors of the OSHC Service.

## **IMPLEMENTATION**

Our OSHC Service caters for children of different ages and abilities requiring educators to consider a variety of different supervision strategies. Younger children require closer supervision, whilst educators need to be respectful of older children’s developing independence and autonomy.

In all environments, adequate supervision means:

- that an educator can respond immediately to a child
- knowing where children are at all times and monitoring their activities actively and diligently
- educators using different skills when supervising and engaging with children - monitoring changes in noise and stress levels, using peripheral vision and changing position regularly
- assessing the risks in the environment and experiences children are engaged in when determining the number and positioning of educators

## SUPERVISION AND SAFE USE OF DIGITAL TECHNOLOGIES

Our OSHC Service recognises that the use of digital technologies and online environments presents specific supervision and child safety risks. Our OSHC Service adheres to and aligns with legislative requirements related to taking images or videos of children. Educators must ensure that the use of any digital device does not compromise their ability to supervise children at all times.

Educators must not use any personal electronic devices including mobile phones, computers/laptops, digital cameras, smart watches and other new and emerging technologies whilst supervising children. Only OSHC Service-supplied devices may be used to capture, store or transmit images or recordings of children and only for educational purposes. Records of service-supplied devices and authorised exemptions will be monitored and maintained by the approved provider.

Educators must maintain sight and sound supervision of children when digital devices are used as part of the program. Any digital learning experience must be age-appropriate, actively supervised and aligned with the Service's *Safe Use of Digital Technologies and Online Environments Policy*.

Supervision risk assessments will consider the location, purpose and supervision implications of any digital device or technology used within the Service. Any breach of expectations relating to the use of digital technologies that compromise supervision or child safety will be managed under the Code of Conduct and Child Safe Environment policies. The approved provider will regularly conduct an audit of service-supplied and service-authorised devices for appropriate access and use, including unauthorised personal accounts on devices.
